

Keep your smile healthy for life

You'll see what we mean when you take a closer look at Denplan Care. It's exceptional. And the same could be true for your smile.

Denplan Care includes preventive care and worldwide dental injury and dental emergency cover, plus the wide range of restorative dental treatments that you would expect to find in private dentistry.

So when your dentist suggests something that could brighten your smile and improve the condition of your teeth, it's easier to say 'yes' - because Denplan Care includes so much.

Spot problems and avoid them

Denplan Care covers you for check-ups, dental x-rays, necessary fillings, hygiene treatments and expert advice from your dental team. This prevents potential problems before they happen, protecting your teeth and saving you money.

Get the best in dental treatment

With Denplan Care, it's easier to keep your teeth in excellent condition without worrying about unexpected bills. Your plan includes any necessary fillings, periodontal (gum) treatment, bridgework*, root canal treatment (if offered by your dentist), crowns* and dentures* as agreed by your dentist.

*excluding charges for building them at a laboratory

Explore the latest options

With your routine preventive and restorative treatments covered by Denplan Care, you may have budget spare to enhance your smile in other ways. These might include tooth whitening, orthodontics, implants or cosmetic treatment, using the latest techniques. These treatments are not covered by Denplan Care. But ask your dentist about the options available.

Emergency cover is included

Denplan Care also provides cover for dental injuries and dental emergency treatment, whether you're in the UK* or abroad (see Supplementary Insurance details for this plan). Simply call our UK-based, 24-Hour Worldwide Dental Emergency Helpline: we'll put your mind at rest and help take care of the details.

*Emergency treatment applies when more than 40 miles from your dental practice

A comprehensive dental plan that helps you budget for your dental care

How it works

Denplan Care is tailored to fit your needs:

- The cost for Denplan Care is decided by your dentist. It's based on your oral health and how much dental care and treatment you're likely to need in the future
- After an initial assessment (which you may be charged for) you will be put into one of five categories depending on your oral health, which will determine your monthly fee
- It's worth remembering that treatment is always at the discretion of the dentist
- Your payment is collected by Denplan monthly by Direct Debit. A one-off registration fee of £15 is payable when you register
- You may save up to 15% with Family Group Discounts if one Direct Debit covers more than one Denplan patient registered at the same practice and if offered by your dentist

Further information, benefit limits, exclusions and full terms and conditions can be found in the Denplan Care Membership Booklet.

Denplan leads the way

Our unique and wide-ranging services have been supporting dentists and patients for 30 years. We are the UK's leading dental payment plan specialist with over 6,500 member dentists and approximately 1.7 million patients.
